

Save the Date...

We are starting to organise our **3rd annual Tarka Trail and Estuary Clean Up** and wanted to send out a Save the Date invitation so you can get the date in your diary. This year it will be held on **18TH SEPTEMBER 2026**.

After 2025's success involving 11 businesses, 10 organisations clearing 435kg of waste from the environment we are keen to go bigger and better this year!

This is a business and organisation orientated event designed for CSR days, team building, company-wide environmental pledges or just simply getting involved in your community.

Whether you have a small or big team, we can help you take on a manageable section of the trail and estuary with full support from us—including kits, guidance, and light coordination.

You are able to support in different ways:

- take part/organise a clean
- offer support to a group doing a clean
- share the clean with other businesses and organisations
- join forces with another business or organisation
- sponsor the clean

Please get in touch for any more information or to say that you would like to get involved this year. We will be in touch again at the end of July/August with firmer details.

Help us recruit

We are really keen to make this a strong business and organisation event and would be really grateful if you could have a think about any businesses or organisations who might be interested in being part of the day. It would be great to get some business to business recruitment going which might help us bring other people onboard too.

Support

We are also looking for businesses who would like to sponsor our community clean programme. There are different ways to support the event on different levels so please take a look at the sponsorship deck to see the options.

Please meet our new Volunteer and Projects Coordinator...

Cc'd in this email is Ray Ashman, our new Volunteer and Projects Coordinator. He will be leading on this project in September (he is currently head down organising 200 Croyde Triathlon volunteers!). I will be putting him in touch with everyone once he starts on this project.

Please get in touch with any question you might have. Looking forward to hearing from you and getting this project underway.

Best wishes

Anne-Marie
